

BLUEGRASS

CONCRETE CUTTING : ROBOTIC HAMMERING : DEMOLITION CONTRACTOR

STOCK CHEST AND CHLORINE TANK REMOVAL AT SOUTHEAST PAPER MILL

Since 1979, Bluegrass has consistently performed quality concrete demolition for a broad range of clients and projects. Our substantial experience in the construction engineering, project management and highly skilled work performance of diamond wire sawing and robotic hammering, has resulted in improved efficiency and safety for our clients. We conduct scrupulous hazard analysis before and during the work process, followed by post contract review, demonstrating Bluegrass's commitment to safety. We invest in continuous training and promote a corporate culture wherein workers understand that good safety practices enhance productivity.
